Summary

Aspiring software developer with hands-on experience as a Programmer Analyst. Proficient in Java, PHP, SQL, and web development technologies. Seeking to contribute my problem-solving skills and knowledge of the software development lifecycle to innovative projects in a collaborative environment while continuing to expand my technical expertise.

Technical Skills

➢ **Programming Languages**

- Java, C++, PHP

➢ **Web Development**

- **Front-End**: React, HTML, CSS, JavaScript
- **Back-End**: Java, Spring Boot, PHP

➢ **Database**

- MySQL

Work Experience

Programmer Analyst Trainee
Mastiff Solutions Private Limited, Amravati, MH
July 2024 – Present

- Design and implemented algorithms for sorting and searching large datasets for faster data retrieval and processing.

Programmer Analyst Intern
Mastiff Solutions Private Limited, Amravati, MH
January 2024 – June 2024

- Working with cross functional teams, including project manager, business analysts.

Education

Master of Computer Application (MCA)
Sant Gadage Baba Amravati University
CGPA: 7.91/10   2022 – 2024

Bachelor of Science (Computer Science)
Degree College of Physical Education, Amravati
CGPA: 8.02/10   2019 – 2022

Projects

E-Commerce Web Application

Developed an e-commerce web application using React, Material UI, TailwindCSS, and Spring Boot with MySQL, enabling users to perform typical e-commerce operations. Integrated a responsive front-end and robust back-end for seamless user experience and data management.

- Tech stack: React, Spring Boot, Tailwindcss
- Frontend: [GitHub](#)
- Backend: [GitHub](#)

Smart Contact Manager

Built a contact management app with React, TailwindCSS, and Spring Boot, featuring user registration, contact management, and third-party authentication like (Google, GitHub).

- Tech stack: React, Spring Boot, Tailwindcss
- [GitHub](#)

E-Commerce Platform (Graphico)

Developed a web application for e-commerce platform during my MCA internship, allowing users to customize products like t-shirts, mugs, and posters with image uploads and design tools, while integrating secure payment and order management features.

- Tech stack: CodeIgniter 4, MySQL
- Payment gateway: PhonePe

Farmer's Online Shop

Created a comprehensive ecommerce web application for farmers to sell their products and buy the required instrument, seeds, fertilizers etc. In that having admin, store manager and customer logins.

- Tech stack: JSP, MySQL
- [GitHub](#)

Soft Skills

Quick Learner, Adaptable, Teamwork

Languages

English, Hindi, Marathi
